Republican Mass Meeting.

At a meeting of the republicans of Mohave county held in the courthouse at Kingman, August 20th, 1898, W. G. Blakely was elected chairman and J. E. Perry secretary. The chairman stated the object of the meeting to be the organization of a Republican Silver League. On motion it was agreed that the name of the organization would be the Republican League of Mohave county.

The secretary was requested to instruct the chairman of the Republican County Committee to call a meeting of that committee together at an early date for the purpose of filling vacancies in the committee and electing delegates to the Republican Territorial convention, which meets at Flagstaff on the 16th of September.

It was also moved and carried that the chairman of the League appoint a committee of three to notify and invite all outside republicans to join and render their support to the League.

This committee was further instructed to call the next meeting of the League at such time as it may think best.

There being no further business before it the League adjourned to the call of the committee.

J. E. PERRY, Secretary.

Last Monday the committee of citizens appointed for the purpose appeared before the board of supervisors and explained the necessity for the repair of the Coyote Hill road. After discussing the matter the board agreed to increase the tax levy for road purposes and in the meantime borrow sufficient money from the county general fund to put the road over the mountain in a satisfactory condition. Tuesday evening Supervisors Crozier and Imus viewed the road and Wednesday they took with them several gentlemen who have built considerable road in this county, and after taking elevations and measurements they concluded to make an entirely new road over a part of the hill. Accordingly the board are advertising for proposals for building about one thousand five hundred feet of new road. This piece of road will be run about a quarter of a mile south of the old bridge over the ravine and will be an easy grade to the summit, and at the same time obviate the building of a bridge. The board of supervisors have taken the matter up in earnest and will soon have the road ready for travel. To the board, and especially to Supervisors Imus and Crozier, are the thanks of the people north of the railroad due for the prompt action in the matter and especially laying out the new road under a tropical summer sun. That the road matter will now be settled at once we are satisfied and our people should liberally aid the board in the matter of grading out the approaches to the new road on the hill.

Last Tuesday afternoon the new flagpole was raised under the superintendence of J. W. Emerson without mishap. The pole stands eighty-seven feet above ground, and is located at the intersection of Fourth and Pine streets, near the Courthouse. The people owe thanks for the pole to the Dennis Lumber Company, the Santa Fe Pacific Railroad Company, Sheriff Potts, Judge Redman and J. W. Emerson. Hon. E. E. Ellinwood furnished the handsome silver ball which decorates the top of the pole. A. Edwards, the popular painter of Kingman, painted the pole a glossy white before it was raised. As soon as the Mohave County Rough Riders return, Kingman will have a flag raising in honor of the bravest boys that ever shouldered a gun.

Yesterday afternoon one of the heaviest rain storms in recent years passed over Hackberry and vicinity. The railroad track above the town was washed out for quite a distance and two bents of the big trestle bridge west of the station was carried away. Two or three old buildings near the big wash were carried away by the flood. The operator reports that the flood of water passing through the big wash was unprecedented. The train from the east due to arrive at 3:30 p. m., yesterday, did not arrive until 2 o'clock this morning. It is still raining hard at Hackberry, and more washouts are feared. At Yucca this morning it is reported that there is four feet of water in the ravine near the station and still rising.

Mine Wanted.

Mining man of experience will develop gold property of merit for one-third interest, or will bond whole mine and develop. Correspondence with owners only. Give full particulars. Will give satisfactory reference. Address P. O. Box 337, Los Angeles, Cal.

Bill Williams a track walker for the Santa Fe Pacific railroad at Yucca, got off a freight train in the lower end of the Kingman yard, Wednesday evening, and started to walk over town. When in front of the old Fay building he was seen to stagger and fall to the ground in a fit. Mart Braffitt and Sheriff Cohenour did all they could for the unfortunate man until the arrival of Dr. Cowie, but he was too far gone and died in a few minutes. Williams had been a hard drinker and had been on a spree at Yucca. He had a bottle of whisky to "taper" off on, but some one stole it, and it is thought he came to Kingman for more. A coroner's jury returned a verdict that deceased came to his death from alcoholism.

The Board of Supervisors placed the levy for the county at 2.95\$ on the 100\$ of valuation, at the meeting Tuesday. In Kingman the rate is 3.10\$ on the 100\$. Fifteen cents lower than last year. This is the lowest levy ever made in Mohave county, and is a great showing for our present Board of Supervisors. With a good railroad assessment next year, there is no reason why the rate should exceed 2.25\$ on the 100\$. In Cochise county the levy is 4.20\$.

Johnson, or Crickmore, who robbed old man Johnson in San Francisco a few months ago, was sentenced to ten years in the pen. Meadors, who aided Crickmore in the robbery, is in the Alameda county jail charged with murder. George Russell, the old man who was robbed, arrived in Kingman yesterday morning, having been called here as a witness in the injunction suit of J. A. Carrow vs. W. B. Stephens.

The city of Manila, which passes into the military occupation of the United States by the terms of the protocol, is lighted by 12,000 incandescent and 260 arc lights; has a telephone system, and is the center of 720 miles in the islands. An English electrical firm, which has done much in the Philippines, says their commercial possibilities and native resources are almost unbounded.

A. Lefever has publicly declared himself an independent candidate for recorder. Mr. Lefever has held the office for two years past and has been a capable and obliging officer. At no time in recent years has the office of recorder and clerk of the board of supervisors been filled so acceptably to the people. Abe is popular with the people and will make a strong race.

Frederick Thomas, general manager of the White Hills Company, accompanied by his two sons, Leonard and Percy, came in from White Hills Wednesday. After a short stay in Kingman Mr. Thomas and son, Percy, took the evening train for California. Leonard Thomas, superintendent of the company, departed for White Hills Thursday morning.

In this issue J. N. Cohenour announces himself as a candidate for the silver republican nomination for sheriff. Mr. Cohenour for several years past has been chief deputy in the sheriff's office and has shown himself to be a capable, energetic officer. He is a strong man politically and will make the other fellows hustle to beat him.

Hon. E. E. Ellinwood, of Flagstaff, was in Kingman Monday and Tuesday of this week on legal business. If Mr. Ellinwood is half as energetic when he gets to Congress as he is when he is in Kingman we will have statehood for Arizona before he has been in Congress a month.

Mrs. H. F. Williams arrived from California last Saturday morning. She reports that her mother, Mrs. J. W. Emerson, is getting along nicely in a Los Angeles sanitarium, and will soon be able to return home.

The rain this forenoon washed out a long stretch of track about four miles east of Kingman and the indications are that washouts will be reported as far south as Franconia.

Mr. and Mrs. W. H. H. Hamilton departed on the stage for White Hills Monday morning. Mrs. Hamilton arrived in Kingman from Canada Saturday evening.

J. W. Tuck and wife and Mrs. A. H. Smith and children, who have been summering on Stockton Hill, are home again.

Mrs. M. B. Eggers will leave on to-day's train for California. While there she will purchase a fine stock of millinery goods.

W. H. Taggart and daughter, Elsie, came in on the delayed passenger train from California Thursday afternoon.

J. A. Carrow, wife and daughter, of the Big Sandy, visited in Kingman this week.

Messrs. Vanderbilt and Shirley, who held a bond on the Swindler mining group, have sold the same to the Congress Gold Mining Company. The Swindler was first located and worked as a gold property, but developed into a remarkably good copper mine. The ore body is from fifteen to twenty feet wide, and widening with depth. It is located one and one-half miles from the Agua Fria and 300 yards from the taxless railroad. It is said that it bids fair to rival in output the mines of the United Verde Copper Company at Jerome.—[Courier.

Here is where the German shoe pinches: As an example in the decline in its exports to the United States our American consul reports a drop of nearly seven million dollars in seventeen towns of his district. And American shoe manufacturers, as another instance of the pinch, are underselling German goods right in the heart of the fatherland.—Los Angeles Herald.

The dominion customs department at Ottawa, Canada, reports that \$1,000,000 was collected on mine outputs at the boundary leading into the Yukon territory. The collections were made from Americans.—Western Mining World.

The New York Life Insurance Company has forwarded to its agent here a check payable to Mrs. Pauline M. O'Neill for \$10,000, in payment of a policy on the life of William O'Neill.—Phoenix Enterprise.

The end of the season nearing, we are selling all spring goods at big discount.

The Little Queen's Picture.

Wilhelmina, who is to be crowned queen of the Netherlands on September 6 next, has personally sent to Mr. Bok, the editor of the Ladies' Home Journal—himself a Hollander by birth—one of her private portraits for publication in the next number of his magazine. It is the last portrait which will be taken of the little lady before her coronation, and will be printed in connection with a specially prepared sketch, showing the personality of the first queen of Holland from every point of view.

Excursions to the Pacific Coast this Summer.

The Santa Fe will sell cheap excursion tickets to Los Angeles, San Diego, Redondo Beach or Santa Monica during June, July and August. The summer at the seaside is not only cool and delightful but it is a most beneficial change from the high altitudes of New Mexico and Arizona.

There is no finer summer resort in the world than Coronado Beach, and in the summer one can stop at this beautiful place at no greater expense than at ordinary places, and at less than half what it costs at Atlantic Coast resorts.

Stoves for Sale.

We have just received a large shipment of stoves. Prices and styles to suit.

ROYAL BAKING POWDER CO., NEW YORK.

An authority on Arizona copper mines says that the production in the Territory this year will increase fully 50 per cent. It increased 25 per cent in 1897. The United Verde mine, owned by W. A. Clark, has a monthly output of 3,000,000 pounds and is probably the largest producer in Arizona, but there are other mines that produce 2,000,000 pounds per month. The Fortuna mine in Yuma is opened to a depth of 600 feet, an evidence that lodes in Arizona go down. The mine is a steady producer, the monthly output of gold being from \$40,000 to \$50,000. The Copper Queen Co. are erecting another large ore bin. The old bins were sufficient for the amount of ore hoisted. A new furnace has arrived to take the place of the last small one. The company are increasing their output, which is said to be over 2,000,000 pounds per month. Owners of the Marcus mine, near Stanton, will soon commence work.—Bisbee Orb.
